MESSAGE FROM PRESIDENT

It is my pleasure to address our Patron, Partners, Members and Associates in my 8th year as the President of Singapore Business Group. As we prepare to introduce 2020, our Business Group can't help but reflect on the past year. We have seen great progresses in all façades of our operations.

The New Year will also bring new goals for us to help continue our growth and expand our service to the local business community. We will head into 2020 in a much stronger position thanks to the successes of the past year.

Our business group has finished off 2019 with a record turnout for all our events seeing record more than 3,500 attendees in the 47 events and co-hosts events we organized last year.

We've seen substantial growth in all our events and expanded our reach in 2019 to include more of our member businesses located outside of Ho Chi Minh City. We also understand the benefit to our members of engaging in events with other local Chambers and business groups.

SBG has continued to engage in the economic landscape in 2019. We had organized our signature event in November 2019 (Cross Chat: US China Trade War Episode II) and had also invited an Industrial Park owner and operator in Laos to give us an economic investment overview of Laos in June 2019.

Moving into 2020 has been a very demanding year for all our members' businesses. With growing concerns of the spread of COVID-19 locally and globally, the economic climate has been very challenging and comes with a lot of uncertainty. All the more we have to stand together and brace through this period of difficulty together. I urged you to reach out to our fellow members and associates to compare notes on the pitfalls and success story of finding alternate business opportunities. We believe this is also a period of finding (机会) opportunity in a危机 (crisis).

On behalf of Singapore Business Group, we will like to wish our Patron, Partners, Members and Associates a prosperous 2020, and stay healthy!

NORMAN LIM
PRESIDENT
Singapore Business Group

The SIA Group's history dates back to 1947 with the maiden flight of Malayan Airways Limited. The airline was later renamed Malaysian Airways Limited and then Malaysia-Singapore Airlines (MSA). In 1972, MSA split into Singapore Airlines (SIA) and Malaysian Airline System. Initially operating a modest fleet of 10 aircraft to 22 cities in 18 countries, SIA has since grown to be a world-class international airline group.

Singapore Airlines is committed to the constant enhancement of the three main pillars of its brand promise: Service Excellence, Product Leadership and Network Connectivity. The SIA Group fleet and network are also expanding in support of the development of its portfolio strategy, in which it has investments in both full-service and low-cost airline operations. This portfolio of airlines serving short-, medium- and long-haul markets gives the SIA Group more flexibility and nimbleness, with the right vehicles to serve the right markets.

In 2018, Singapore Airlines launched the world's longest commercial flight, with non-stop services between Singapore and New York, as well as non-stop services between Singapore to Los Angeles, and increased non-stop services to San Francisco, using the new Airbus A350-900ULR (ultra-long-range). In September 2019, Seattle became the fifth US city in Singapore Airlines' route network – and the fourth to be served non-stop from Singapore.

VSIP - SEMBCORP GATEWAY DEVELOPMENT COMPANY LIMITED

VSIP - Sembcorp Gateway Development Co. Ltd is under a joint venture by VSIP Joint Venture Co., one of the largest integrated land developers in Vietnam, our partners and shareholders: Singapore's Sembcorp and Japan's MC Development Asia (through parent company Mitsubishi Corporation) who have delivered real estate development projects in Singapore, Japan, North America, China and ASEAN.

The Habitat, the first part of VSIP I Mixed Development project sits on a 4.1-hectare land plot which is developed into a mid-market residential project of about 163,807 square metres gross floor area, comprising 1,380 apartment units and amenities. Phase one comprises two blocks of 250 apartment units. The Habitat is part of the developer's efforts to develop projects that complement the functions of VSIP, delivering an integrated urban work and living environment that enhances the attractiveness of VSIP.

The Habitat will give you a home whose quality and design you can always depend on. The design is fully precast, to avoid on-site waste and make construction efficient. This design uses passive design for the tropics. The innovation is the external, covered spaces between the blocks. These social and community spaces in the sky are a way to ensure that high rise, high density projects do not cause alienation, but instead can be vibrant living, low energy communities.
